

Free VisualARQ 3 Webinar

WHERE: Online; [FREE Registration](#)

WHEN: March 5th, 2025 – 5PM CET

LANGUAGE: English

Are you ready to take your Rhino modeling to the next level with BIM? Join our [free webinar](#) on “**Getting Started with VisualARQ 3**”, where you’ll discover the Flexible BIM features VisualARQ adds to Rhino and how to create parametric architectural designs with ease!

In just **60 minutes**, you’ll learn:

- How VisualARQ integrates seamlessly with Rhino.
- Essential tools for modeling walls, doors, windows, stairs, and more.
- How to organize projects with the Level Manager.
- How to generate 2D drawings and quantity take-offs
- How to export your models to IFC.

This session is perfect for architects, designers, and Rhino users who want to **enhance their workflow with BIM features** while keeping the freedom and flexibility of Rhino. Whether you’re a beginner or looking to refine your skills, this webinar will provide practical insights and hands-on demonstrations.

Don’t miss out! [Register now](#) and take your Rhino skills to a whole new level with VisualARQ.
