Rhino User Webinar: Building 3D web apps with Rhino Compute and Modelup

WHERE: [Zoom](#)
WHEN: April 8th, 2025, 09:00 AM ET

Join us in this webinar to explore the art of building 3D web apps and configurators with [Rhino Compute](#) and [Grasshopper](#). We will share our best tips and tricks for creating excellent user experience while avoiding common pitfalls. You will also get a demo of the [Modelup platform](#), where Grasshopper users can upload definitions and turn them into interactive, web-based configurators.

About the speaker:
[Emil Poulsen](#) is the co-founder of [Modelup](#), a company building web based 3D apps and configurators powered by Rhino and Grasshopper. Emil has a background in architecture, engineering and software development and has previously worked at companies like Thornton Tomasetti and Buro Happold.
