The Talavera Project, Bridging Heritage and Technology for a Sustainable Future

The Talavera Project aims to blend traditional handmade craftsmanship with digital fabrication, specifically robotic 3D printing. Inspired by Uriarte Talavera’s historic techniques, the team used Rhino for 3D modeling and Grasshopper for slicing and optimizing printing.

A Pioneer’s Journey at the Intersection of Art, Mathematics, and Technology

As we celebrate Rhino’s 25th anniversary, we recognize the contributions of Rinus Roelofs, who uses Rhio without preconceived notions of scale, material, or color, allowing for a flexible and practical approach to his projects. His innovative and creative spirit has propelled the software to greatness, exemplifying the endless possibilities when mathematics, art, and technology intersect.
